\* NIH funding levels include Evaluation Tap Funding, but exclude the transfer of \$100 million from NIH to the Global HIV/AIDS program

\*\* These amounts include a mix of discretionary funding to achieve the maximum grant and mandatory funding to retire the \$4.3 billion Pell Grant shortfall

<sup>^</sup> Final levels reflect the expected impact of a 1% across-the-board cut to all discretionary accounts (except Veteran's Affairs) enacted in the FY06 DOD appropriations bill
